Michael P Stephens  
Castle Properties Ltd.

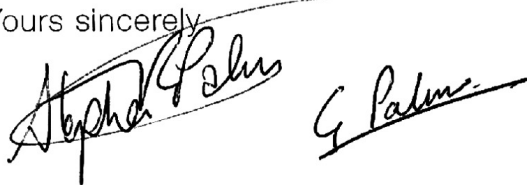

Dear Michael,

Thank you very much for all the hard work you put in to securing planning permission on our land.

Mole Valley as we discovered is a particularly difficult authority to deal with but your perseverance and that of the rest of the team won through in the end!

From start to finish the project was handled very professionally and although on occasions we were deluged with copy correspondence, it was very helpful to be kept fully informed as to how matters were progressing. It also provided an insight into the amazing amount of time and resources that go into such a project. Thank you once again.

Yours sincerely
